City Manager's Budget Message

Since this is my first time preparing the budget for the City of Willcox, I thought it would be helpful to first outline my perspective on budgeting before delving into the City's financial condition and FY15 budget of the City. As a foundation piece in the local government's operation, I believe the budget should not only accurately reflect the financial condition of the city government, but it should also be transparent (easy to read and to understand).

To enhance accuracy, projections were not budgeted until appropriate information was received, such as State Revenue Sharing figures. I have also stressed the importance of accounting for expenditures in the appropriate categories which has resulted in a more accurate accounting of expenditures. For example, an "office supply" item will always be accounted for in "office supplies" even if the "office supplies" category is over budget, rather than it being recorded in "vehicle repair" because that category happens to be under budget. To minimize expenditure inflation, I encourage department heads to make comparisons based on previous years' actual expenditures rather than to budgeted expenditures. For instance, if "Office Supplies" actual expenditures were \$3,000 for the last three years, justification was provided for its increase over actual expenditures, not over previously budgeted expenditures which may have been inflated.

To foster transparency, I've added a budget comparison column to the FY15 budget, making it easier to compare budgeted figures with actual figures. Additionally, an annual budget to actual graph was added to provide a quick visual picture of how well the City is doing. Overall, I've made the budget easier to read.

Now, for how the City of Willcox is doing financially. The FY14 budget was passed with a "planned" deficit, and FY15 will be the same. For FY14, sales tax revenues, the highest contributor to the General Fund, sales tax revenue, is about \$382,298 (15%) less than what was projected. This will result in a projected use of fund balance of \$344,444. For the FY15 budget, my projected sales tax revenue is based on actual and projected FY14 revenues, a new business (Carl's Jr.), and planned business relocations along with historic trends. Historically, an annual decrease in revenues has been followed by a year with increased revenues with a continued long-term downward trend.

As the City works on eliminating this deficit over the next few years, it will need to continue to look for ways to cut spending. Willcox and many other communities across the nation are living in a new reality. Shopping at big box stores in neighboring, larger communities and online shopping results in decreased spending in the local community and in-turn lower sales tax revenue. As a large percentage of the City's budget is fixed costs, this means the City needs to find ways to cut costs in every area it can. To save money, it's important for the City to think long-term in nature, not short-term. A lease purchase, for example, from a short-term perspective, has much less of an impact on the annual budget than the full capital expenditure being made all at once. In the long run, however, a lease purchase costs more money than an outright purchase. Another example of long term thinking was the City taking over the operation of the golf course. That was an unexpected, unplanned expenditure which on the short term had an impact on the budget. Over the long term, with proper management, we anticipate that it will pay for itself while providing a city amenity. Another example of thinking long term over short term is purchasing items with quality in mind. While it may be cost effective to purchase lower

quality products in the short term it may actually cost more over the lifetime of the item due to increased replacement costs and/or repair and maintenance costs. In addition, I look for ways to “think outside the box” to save money. While \$300,000 was budgeted by the City last year for the removal of the burned out motel, the City was able to do it for \$67,000 through a cooperative effort between the City, the non-profit organization Willcox Cares, the County, private citizens, and the bank which held the property. Other cost saving measures that have been implemented are purchasing, rather than renting, mop handles, carpets, rags and other miscellaneous items. Some City Hall interior lights were on 24/7; now they are turned off at the end of the day. A timer was placed on the bathroom lights and fans. While these saving may not seem like much, all added up they result in considerable savings. We will continue to look at ways to cut costs.

As the City has looked for ways to decrease spending, a number of employee positions have remained unfilled over the last several years and employee salaries have stagnated. I have included a cost of living raise in this budget of 1.3%. Current employees have been required to take on more duties as a result of unfilled positions and will, at least, have a cost of living increase. As employees continue to resign or to retire, positions will continue to be evaluated as to whether duties can be reassigned to other employees rather than hire a replacement.

The City must also look for ways to increase revenue. We were able to bring in \$18,000 in revenue this year in conjunction with the goal of cleaning up Willcox by selling unneeded items in a local auction. With the belief that government needs to set the example, the City is taking a close look at the image it presents. As a result, a City property clean-up is underway which has both resulted in a better appearance of City property and revenue from the sale of unnecessary/unused items. The City will also continue to look for and to apply for grants that might help with various projects as they arise.

The department heads looked closely at their budgets. As a result, the FY15 General Fund expenditures are budgeted at \$4,222,712 which represents a \$531,125 reduction in budgeted expenditures from FY14.

Major changes in the Utility funds include paying off the lease purchase on the asphalt zipper, which will save \$7,000 in interest payments and purchasing a street sweeper. Street preservation and patching will continue at historic levels. Meter replacements continue in the Water and Gas Departments. In the Sewer Department, \$6,000,000 is budgeted for the start of the new sewer plant and \$29,000 for a sewer system camera.

It’s never easy to face budget deficits. Tough choices have been made this year, and more are likely on the horizon as the City continues to make steps to get Willcox back in the black.

The City can help foster economic development by providing proper zoning, stable infrastructure, and a responsive/positive attitude to inquiries from the private sector about business opportunities and new housing opportunities. We continue to promote Willcox as a great place to live, work, and raise a family.

Ted Soltis
City Manager

FY 15

Capital Improvements - 50-459-9902

Project Title	Description/Justification	Cost
Meter upgrade/replacement	The City is mandated by the Arizona Corporation Commission (ACC) to upgrade at least 10% of the system every year.	\$58,500
Service line replacement	This line is for the Middle School which will require boring.	\$4,000
Steel gas main replacement	This project will replace approximately 4,000 to 5,000 feet of steel gas main with polyethylene pipe as part of an ongoing replacement program.	\$60,900
Total		\$123,400

Capital Purchases - 50-459-9901

Project Title	Description/Justification	Cost
1 1/2" to 2" gas no-blo valve replacement tool	This tool will be used to replace valves on service risers.	\$3,700
Three (3) Computers	Current computers have exceeded their life expectancy.	\$3,600
Over-head vehicle hoist	The present hoist is unable to handle heavier vehicles. Cost distribution = (1/3) each water/sewer/gas funds.	\$3,000
Tire changing machine	The current machine, purchased in 1985, has exceeded its life expectancy. Cost distribution = (1/3) each water/sewer/gas funds.	\$2,667
Total		\$12,967

Capital Improvements and Capital Purchases
FY15

Capital Improvements - 52-459-9902

Project Title	Description/Justification	Cost
Three (3) spare pumps for collection lift stations	Backup pumps will allow the system to continue to operate in the event of a pump failure.	\$30,000
Total		\$30,000

Capital Purchases - 52-459-9901

Project Title	Description/Justification	Cost
Sewer system camera	The camera will be used to inspect aging sewer mains to identify problem areas. This will also provide data for grant applications.	\$29,000
Three (3) computers	The current computers have exceeded their life expectancy.	\$3,600
Over-head vehicle hoist	The present hoist is unable to handle heavier vehicles. Cost distribution = (1/3) each water/sewer/gas funds.	\$3,000
Tire changing machine	The current machine purchased in 1985 has exceeded its life expectancy. Cost distribution = (1/3) each water/sewer/gas funds.	\$2,667
Total		\$38,267
